University of
Salford
MANCHESTER

AWARDING BODY

Starts Feb 5th
**1 year part-time
study**
£8,600

Accredited PG Cert in Non-Surgical Facial Aesthetics at Level 7 (NSFA) This is a unique PG Certificate course developed and delivered collaboratively by the University of Salford and ICE Postgraduate Dental Institute and Hospital, Salford Quays.

Taking this course will help secure your future as an aesthetic practitioner. We offer hands-on training with experienced mentoring support in a state-of-the-art clinical setting. The course is led by Dr. Sam Curtin and Dr. Rabia Khan, with lectures delivered by an outstanding team of renowned expert speakers. This course is designed to satisfy the requirements of both the CPSA and JCCP.

Attendance requirement: 18 days
(including academic, observation and clinical days)

The PG Cert Programme in Non-Surgical Facial Aesthetics (NSFA) is aimed at dental practitioners, medical practitioners and nurses who are registered with the appropriate body (GDC, GMC) and have a relevant degree at level 6.

All applicants must hold: evidence of a relevant degree and registration in addition to full indemnity insurance.

Apply at: <https://apply.salford.ac.uk/>

Key features of the course:

The course is based on the JCCP's competency framework and aims to develop and assess those competencies required of practitioners administering Botulinum Toxin and Dermal Filler treatment in clinical practices:

- Basic principles of dermatology
- Facial anatomy & physiology of ageing as applied to NSFA
- Risk factors related to lips, cheeks & nasolabial regions
- Complication avoidance techniques
- Law, ethics & consent principles applicable to Botulinum Toxin & Dermal Fillers
