

ICE Postgraduate  
Dental Institute  
& Hospital

# INTRODUCTION TO DENTAL IMPLANT NURSING

1 day course  
Autumn of each  
year, see website  
for details  
£125

Study in a Digital Reference Centre for dentistry  
- ICE POSTGRADUATE DENTAL INSTITUTE AND HOSPITAL

This one-day introductory course by ICE is designed for all UK-registered dental nurses to provide an insight into dental implant treatment for both those new to implantology and those with some implant experience.

This course will fulfill **GDC Development Outcomes B & C.**

**LEARN NEW SKILLS - ENHANCE PATIENT CARE**

## WHAT YOU'LL LEARN:

This hands-on course covers all the essential elements to gain an overview of dental implant treatment:

1. Overview of what a dental implant is and how it interacts with the body
2. Introduction to the indications and contraindications for implant dentistry
3. Overview of the stages of dental implant treatment

“ *Excellent course! I can't wait to get back to my practice with new knowledge.* ”

A. Chambers
